

Heathrow airport

At the beginning, the Heathrow airport was founded as a small airfield in 1929, but after World War II, it was developed into a much larger space, and then it was opened commercially for air travel on May 31, 1946. Now, it's the most famous and largest airport in the United Kingdom. Heathrow airport is used by over 90 airlines for 170 destinations worldwide. That is why it is referred to as the primary hub of British Airways.
