INTRODUCTION

Welcome to Embossing Rollers Ltd (ERL), your trusted partner in the world of engraving, serving the embossing and converting industries both in the UK and globally. Established in 2013, we take immense pride in our journey of growth and excellence, offering a comprehensive range of services that redefine precision and craftsmanship.

OUR SERVICES

ROLLER ENGRAVING SERVICES

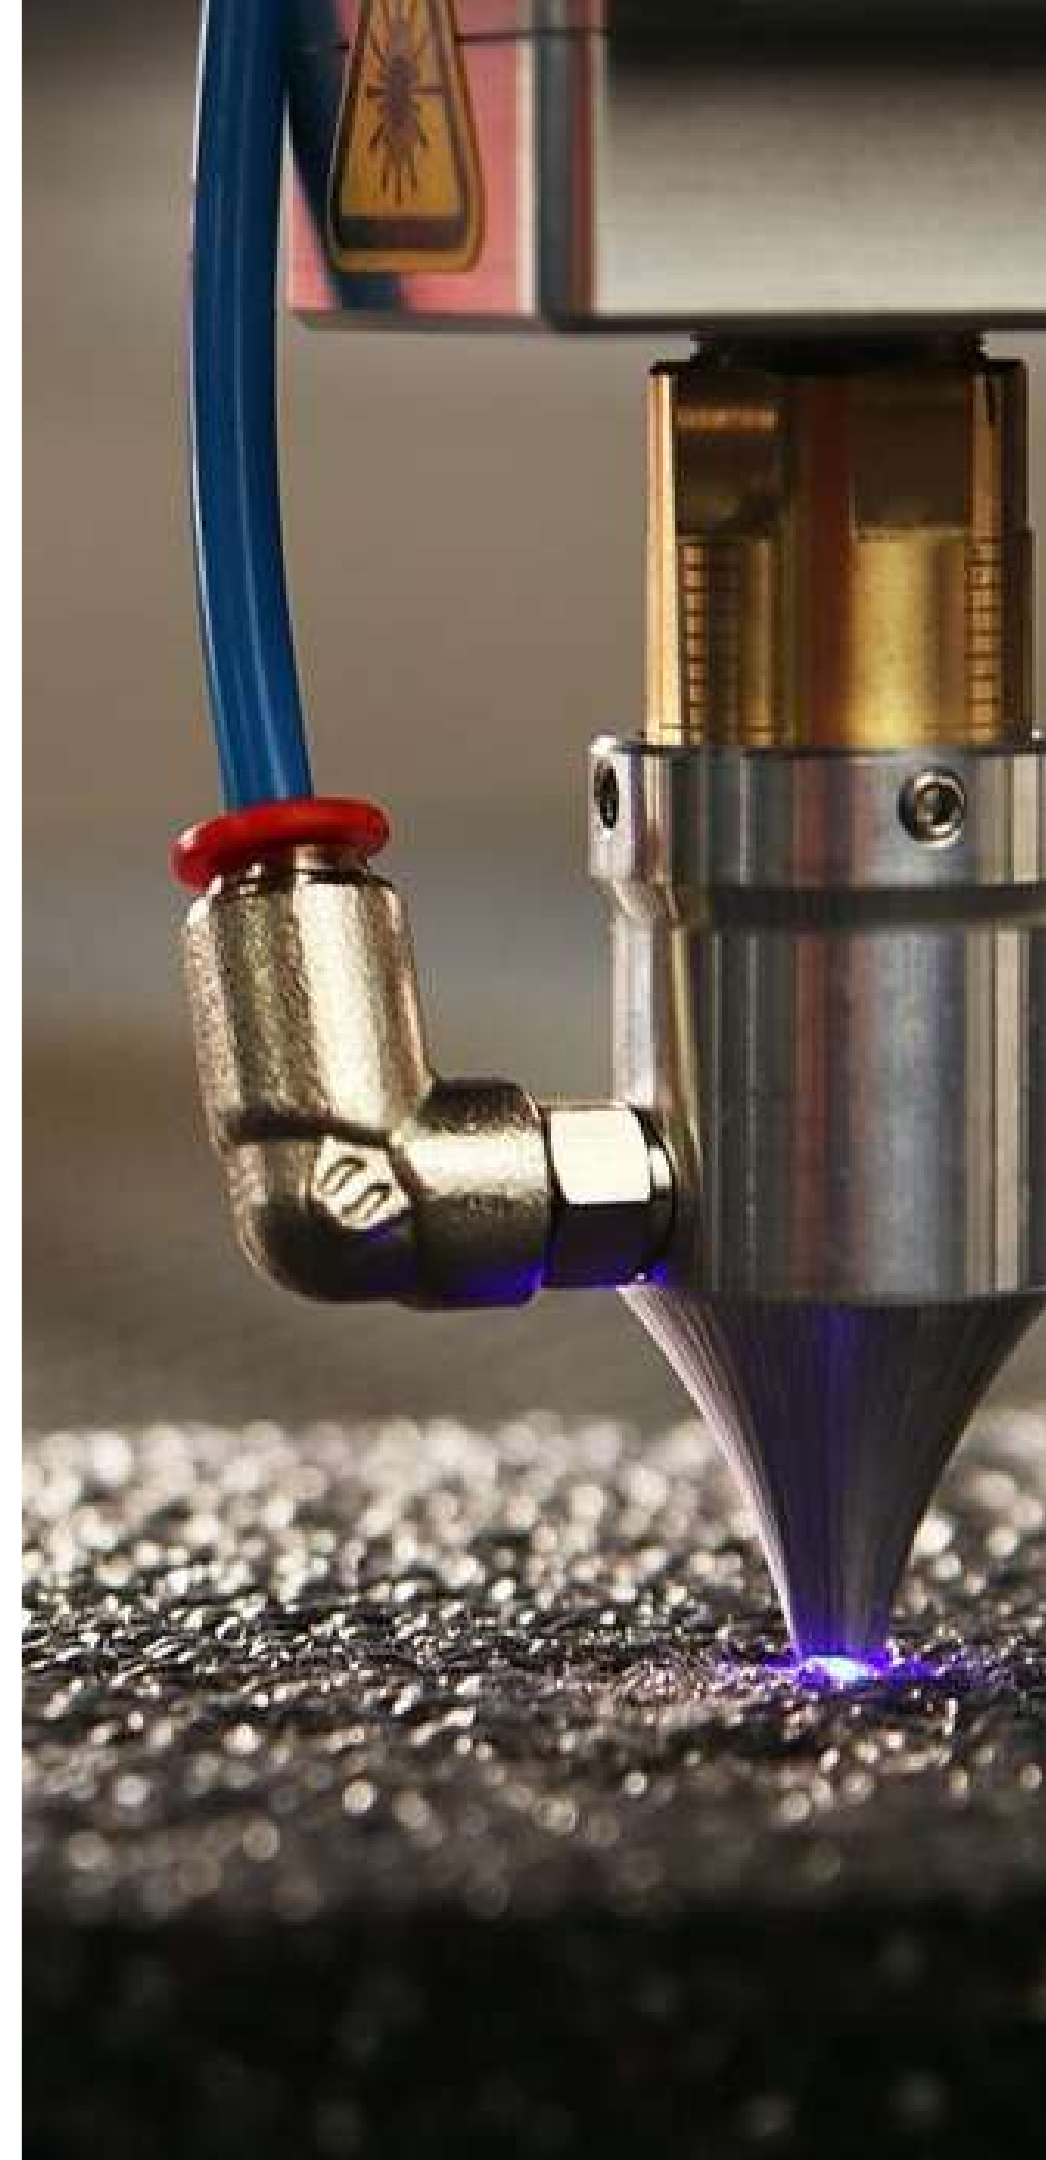

Unleash the power of intricate designs with our state-of-the-art roller engraving services. We specialize in transforming your vision into reality, ensuring unparalleled quality and precision.

REPAIR & REFURBISHMENT SERVICES

Extend the life of your rollers with our expert repair and refurbishment services. Our skilled technicians employ advanced techniques to restore rollers to their optimal condition, minimizing downtime for your operations.

PATTERN DESIGN & DEVELOPMENT

Elevate your products with unique patterns crafted by our experienced design team. From concept to creation, we bring your ideas to life, providing innovative solutions for a variety of applications.

OUR SERVICES

ANILOX ROLLERS

Precision meets performance with our specialized anilox roller services. Experience consistent and reliable results as we optimize your anilox rollers to meet the demands of your printing and coating processes.

DE-CHROME OF ROLLERS

Ensure environmental compliance and longevity with our de-chroming services. We responsibly remove chrome layers, contributing to sustainability while maintaining the integrity of your rollers.

CHROME FINISH

Enhance durability and corrosion resistance with our chrome finishing services. Our meticulous process ensures a flawless chrome finish, adding longevity to your rollers.

OUR SERVICES

RUBBER ROLLS

Optimize your operations with our high-quality rubber rolls. Our expert manufacturing process guarantees durability and performance, tailored to your specific requirements.

ROLL GRINDING AND TURNING

Achieve precision and balance with our roll grinding and turning services. Our skilled craftsmen meticulously grind and turn rollers to exact specifications, ensuring optimal performance.

ROLL MANUFACTURE

Trust in our expertise for custom roll manufacturing. We design and manufacture rollers with precision, meeting the unique demands of your industry.

WHY CHOOSE EMBOSSING ROLLERS LTD

- Expertise: Our team of time-served engravers brings a collective 80 years of experience, ensuring unmatched expertise in the field of engraving and embossing roller technology.
- Innovation: We thrive on delivering practical solutions to unique applications, driven by our in-depth understanding of embossing technology.
- Quality and Pride: Every project at ERL is underpinned by a commitment to quality and pride. Our stringent inspection procedures guarantee customer satisfaction and foster long-term partnerships.
