

FOR BRAZILIAN CITIZENS - TURKEY Turkish Electronic Visa System Online - Government of Turkey
eVisa - Visto eletrônico online oficial do governo turco, um processo online rápido e rápido.

As of my last update in January 2022, Turkey offers an electronic visa (e-Visa) application system for citizens of Brazil. Here's a general guide on how to apply:

Visit the Official Website: Go to the official website for Turkish e-Visa application. The URL may change, so it's best to search for it online.

Select Country and Passport Type: Choose your country [Turkey Visa Application](#) of citizenship (Brazil) and the type of travel document you hold (usually ordinary passport).

Check Eligibility: Ensure you meet the eligibility criteria for an e-Visa. This typically involves having a valid passport with at least 6 months of validity remaining beyond your intended stay.

Fill Out the Application Form: Complete the online application form with accurate information. You'll need to provide personal details, passport information, and your travel plans.

Upload Required Documents: You may be required to upload a digital copy of your passport bio-page. Make sure the scan is clear and meets the specified requirements.

Pay the Fee: There's usually a fee associated with the e-[Turkey Visa application Online](#). Payment methods vary but commonly include credit/debit cards.

Submit Application: Once you've filled out the form and paid the fee, submit your application.

Receive e-Visa: After processing, you'll receive your e-Visa via email. Make sure to print it out or have an electronic copy accessible on your device.

Entry to Turkey: Upon arrival in Turkey, present your e-Visa along with your passport to the immigration officials.

Always double-check the specific requirements and procedures on the official website before applying, as they may have been updated since my last knowledge update. Additionally, it's wise to apply for your e-Visa well in advance of your travel dates to allow for any processing delays.
