Our Patient Stories

Dental Services Offered:

General
Checkups

Dental Implants

Restoration

Cosmetic
Dentistry

Teeth Whitening

Invisalign

Preventative Dentistry

To prevent formation of cavities, enamel wear, gum disease/recession, and bone loss, she emphasizes on importance of oral hygiene with correct brushing and flossing techniques as well as in-office routine cleanings, sealants, nutritional counseling, tobacco cessation, night guard, and dental/behavioral management.

Cosmetic Dentistry

Dr. Babrood takes pride in the quality of the [cosmetic dentistry](#) she provides to create healthy and beautiful smiles. In her office in Valley Village, she prioritizes her patients' wants and needs and presents solutions and alternative treatments such as veneers, crowns, bridges, implants, Invisalign, in office and at home whitening.

Invisalign

Passionate about natural and healthy smile, Dr. Babrood is an advocate of conventional and cosmetic braces, as well as [Invisalign](#). After a thorough consultation, she guides her patients through the process to change a crooked, crowded, spaced out, misaligned teeth to a healthy and beautiful smile.

Teeth Whitening

Dr. Babrood offers in-office teeth whitening as well as in-home [whitening treatments](#). She also discusses daily routine dental care and nutritional counseling to prevent teeth from staining and preserving a long, lasting and esthetic smile.

Emergency Care

Being an expert in relieving dental pain, Dr. Babrood welcomes walk-ins and same day appointments for [dental emergencies](#) such as extractions, broken tooth, missing filling, fractured crown/bridges, infected gums and root canals.

Dental Implants

[Dental implant](#) is proven to be the ideal treatment in replacing a missing tooth for its functionality and longevity. Working with a periodontist and/or an oral surgeon, Dr. Babrood has extensive experience in restoring implants with [crowns](#) and/or [bridges](#).

What Is Holistic Dentistry?

Holistic dentistry is an alternative to traditional dentistry. We try to avoid medication in favor of natural healing methods and relaxation if and when possible. When treating dental issues, we look for the root causes of dental problems, such as nutrition, gut health, lack of minerals and vitamins, and other health issues, even a crisis of mental health such as anxiety. By looking at the body as a whole, we can better help you achieve excellent health, oral and otherwise.

At a holistic dentist, your cleanings or dental restorations will be safer and gentler on the body than at a traditional dentist. This is because you will be exposed to only biocompatible materials better tolerated even by very sensitive individuals. In addition, we prioritize natural healing methods like saltwater rinses, homeopathic treatments, natural herbs, aromatherapy, and ozone treatments to help the body regenerate and heal. Our practice is fluoride-free.

Emergency Dentistry

If you have a severe toothache or dental injury, Rite Dentist in Valley Village can help. We will offer you the soonest appointment possible to get you out of pain. Putting off treatment can cause infection to spread, and physical pain stresses the body and soul. If you are anxious about dental treatment, we offer holistic methods of relaxation to help you feel comfortable. A holistic dentist is a gentler, safer option than going to the Emergency Room. We are deeply invested in the health of our patients. Unlike the ER, we plan to see you for follow-up appointments to ensure you are healing well after your initial visit. So don't put off dealing with dental pain. Let us help!

Invisalign

Did you have your teeth aligned as a teen, and your teeth have shifted back? Or have you always had some misalignment and wondered what you would look like with perfectly straight teeth? Invisalign is a metal-free, BPA-free, gentle and safe option for teeth alignment. Your smile makes a significant impact on your overall appearance and your self-confidence. The aligners are removable for meals, so you can continue to eat all of your favorite foods and brush and floss as usual. Wear your retainers 22 hours a day, and you will often see improvement within only weeks. Complete treatment usually takes around a year, but the length of time depends on your situation and how much misalignment you must correct. Schedule an Invisalign consultation with your holistic dentist in Valley Village, CA, and let us put together a personalized treatment plan for you.

Zirconia Dental Implants

Our holistic dentist in Valley Village, CA, offers Zirconia dental implants. Zirconia is the most biocompatible choice for replacing a broken or missing tooth. Traditional implants may include foreign materials, toxins, and metal posts. Zirconia implants are not only better in sync with your body, but they are also durable and longer-lasting. In addition, as aesthetic specialists, we will ensure your dental work blends seamlessly with your natural teeth so that no one but the dentist will know you have an implant. Dental implants maintenance is just as essential as your natural teeth. Brush and floss as usual. Call our Valley Village dental office today to schedule a zirconia implant consultation.

Frenectomy

A frenectomy may be necessary if you or your child has a tongue-tie. This can interfere with eating, speaking, or oral appliances like mouth guards, braces, and dentures. A frenectomy refers to a quick surgical procedure releasing the frenum, often performed with a laser. We can treat tongue ties with frenectomy for patients of all ages. We ensure that the procedure is comfortable for you. In addition, our holistic dentists will discuss a natural recovery plan following your treatment.

Teeth Whitening

Teeth whitening is a cosmetic dentistry service that helps brighten your smile. If you have stained or discolored teeth from medication, drinking coffee, tea, or wine, or smoking, there are safe and holistic options that can help you brighten your smile. Over-the-counter treatments contain harsh chemicals and can create sensitivity and weaken your tooth's natural structure. Holistic teeth whitening will improve the brightness of your teeth safely and gently. Results can last a long time with proper hygiene and maintenance.

We Specialize In:

Tooth Colored Filling

Tooth Extractions

Meet Dr. Babrood

Dr. Maryet Nikkie Babrood is a cosmetic and restorative dentist in Valley Village who is passionate about creating happier, healthier and shinier smiles for patients. Dr. Babrood takes pride in offering high quality patient care and dental services. She treats her patients like family and believes everyone deserves a beautiful smile to be proud of.

Dr. Babrood's passion for dentistry began when she was seven years old as she extracted her younger sister's tooth with a string. She spent most of her childhood with her dentist uncle and learned to build the greatest compassion for relieving pain and helping patients smile again. "I feel like Dentistry has been in my blood ever since my sister stopped crying out of dental pain. I wanted to become the best dentist I could be where I am able to turn that terrified, in pain and anxious face into a calming and an enjoyable dental experience.

Dr. Babrood earned her first bachelor's degrees in Biology and Psychology and then was accepted in one of the most prestigious and competitive programs Dental Hygiene/Doctor of Dental Surgery Pathway Program at University of Southern California where she became a competent dental hygienist and a dentist consecutively.

Dr. Babrood has enormous experience in working with patients with both dental and medically compromised patients. During her dental career as well as all of her volunteering experiences in both international and local disadvantage areas, Dr. Babrood has created countless beautiful and genuine smiles.

If you have not found your right dentist yet, then give **Rite Dentist** a shot!

Dr. Babrood and her excellent team can't wait to meet YOU!

You're In good Hands

Your Whole Health Starts with the Perfect Dental Care!

Dental care is more than just a beautiful smile. At Rite Dentist we believe in great smiles and we are committed to making your smile perfect, but at the same time, our philosophy is in order to be healthier you would need to start in the mouth.

Dr. Babrood has the gentle touch and care for those who are sensitive to dental care. She has vast knowledge of dental field and has treated many patients who believe in holistic dental care

DIR

Cosmetic Dentistry in Valley Village, CA

Are you unhappy with your smile? Do problems with your teeth or gums make you self-conscious in crowds or when meeting new people? With professional cosmetic dentistry in Valley Village, CA, you won't want to hide your smile any longer.

You can count on the [holistic dental](#) team at Rite Dentist. We use many modern techniques to treat cosmetic dental problems safely. We believe that professional, compassionate dentistry is essential to well-being.

A Holistic Approach To Cosmetic Dentistry

Some dentists just treat symptoms of disease or injury. However, we know that dentistry is more than just covering up problems. Our holistic approach uses dentistry as a starting point to psychological healing and whole-body wellness.

The Power of Repairing Smiles

If your smile isn't what you want it to be, that affects every aspect of life. A damaged smile can:

- erode social relationships
- create feelings of low self-worth
- trigger fears of aging
- be a reminder of past trauma

Cosmetic dentistry doesn't just fix teeth or even just restore smiles. Instead, cosmetic dentistry can mend souls and give people the confidence to face the future.

Caring for the Community

Dr. Babrood trained as a dentist and dental hygienist to heal the Valley Village community members and the Los Angeles area. Cosmetic dentistry in Valley Village, CA, is her lifelong passion. That's why she continues to volunteer her time to serve people in need.

Cosmetic Dental Services at Rite Dentist

We want to learn about you and your wants and needs, fears, anxieties, and hopes during a consultation at Rite Dentist. Then, we better understand what and how we can give you a perfect smile because we understand your unique vision of perfection.

When you visit Rite Dentist, we listen to you. We create a treatment plan that helps you reach your goals. We put our expertise with the latest dental procedures, techniques, and equipment to give you the best experience.

These are just some of the services that we offer.

Porcelain/Ceramic Veneers

Veneers are coverings that conceal discoloration or unsightly scratches on teeth. They match the color and feel of your natural teeth. With durable porcelain or ceramic veneers, you can forget about imperfections.

Teeth Bonding

Teeth bonding or dental bonding is a cost-effective alternative to veneers. Bonding attaches a resin that hides chips and other imperfections. Bonding also looks like natural teeth and can last for several years. Teeth bonding could be done chairside on the same day or fabricated by the lab for extra polish and shine.

Dental Crowns

Dental crowns replace the tops of damaged teeth. They are dental prosthetics that the dentist holds in place with a dental adhesive. Crowns can restore your appearance and make it easier to chew. In addition, a crown is ideal for restoring a severely damaged tooth.

Dental Bridges

Dental bridges are a solution if you miss teeth but don't need full dentures. They fill in the gaps left by missing teeth. A single bridge could replace two or more adjacent teeth. Dental crowns on one or both sides hold bridges in place. Long-span dental bridges are not recommended as they will reduce the prognosis of the "holding teeth" for the bridge.

Dental Implants

Zirconia implants are made of a ceramic material that is biocompatible for your body. Zirconia implants are a holistic, durable, and long-lasting solution for replacing missing teeth. They fit and look better and are more biocompatible than titanium implants.

Implants in general cost more than bridges or dentures but offer benefits:

- They fit securely.
- Unlike bridges, they don't require crowns.
- They help prevent bone loss.
- They are low maintenance.
- Durability can allow them to last a lifetime.

Instead of full dentures, consider all-on-four dental implants. They are full dental arches that attach to the jaw with four screws. Avoid the hassle of denture pastes and adhesive. During dental implant surgery, the surgeon might add additional bone. A bone graft improves stability for the implant.

Teeth Whitening

Do over-the-counter whiteners work? Professional teeth whitening uses custom-made containers for effective whitening. However, you can avoid the risk of tooth damage by whitening teeth under a dentist's supervision. We offer two types of teeth whitening by using Zoom, blue light, or via laser. Call us to discuss this over the phone to see which one is your best option.

Contact a Cosmetic Dentist in Valley Village, CA
